# Memento Travertino Collection

Memento Travertino Collection is a high-def digital porcelain with a rectified edge.

There's few things that are more classic and timeless than a vein-cut Italian travertino because of the regularity of tone and organic flow of veining. Memento Collection captures the classic aesthetic perfectly in a modern palette.

Lapatto finish and large format available for special order. Nero colorway in all formats available for special order.

This collection including mosaic may be used on floors, walls, in wet areas such as bathrooms in interior & exterior for residential & dry-area commercial applications.
