PAWN MIX DETAIL

* Each Chess Pawn box contains a variety of designs in the package. No specific pattern can be selected.

Chess Collection

Chess is a pressed edge, porcelain tile decorated with inkjet technology on a floor-rated satin glaze.

In this digital age, with everything on screens and high-tech - we are reconnecting with things that are done by hand. Simple things that take time and personal attention have great value to us. That is the core concept of the Chess collection created in collaboration with design students in Barcelona.

This collection may be used on interior or exterior walls including wet areas such as bathrooms. In addition, it can be used on floors in residential and commercial environments. Due to smooth surface it should be kept to covered areas for exterior flooring.

SHADE VARIATION	V2	 uniform appearance V1	 slight variation V2	 moderate variation V3	 substantial variation V4
